Question 1: You are going on a trip on business to another country. Call a hotel that you want to stay at and ask three or four questions about the hotel.

Answer:
Hello! I'm planning a business trip and was wondering about your hotel. Can you tell me about the room options you have available? Also, do you offer any business facilities like meeting rooms? What's the easiest way to get from the airport to your hotel? And, one more thing, are there good restaurants or cafes nearby?

Question 2: You were supposed to go on the business trip to another country with your boss.
However, something came up suddenly and you can’t go.
Call your boss, explain the situation, and make two to three suggestions that will help you continue your business with the company overseas.

Answer:
Hey Boss, I can't make it on the business trip due to a sudden issue. I'm thinking we could do video calls or emails for updates. Another option is having someone else from the team go instead. What do you think, or do you have other ideas?

Question 3: Have you ever had a problem during a trip you took on business or for leisure?
What was the nature of the problem and how did you deal with the situation?
Describe in detail about what happened.

Answer:
Sure thing! Once, when I was on a work trip, my suitcase went missing. It was a big problem because I had important papers inside. I quickly told the airline, filled out a report, and thankfully, they found it later. The lesson? Always keep important stuff in your carry-on bag!

Good luck For Your Exam!
